

MicroNanoBroker: Helping Industry Connect to European Partners

The Michelsen Centre welcomes you to a workshop with Dr Liliana Sendler who manages [MicroNanoBroker](#):

This EU initiative helps connecting companies in search of competencies and project partners within micro and nano systems, facilitating both direct R&D cooperation and participation in EU funded research.

Dr Sendler will explain how to use and profit from the MicroNanoBroker database which is free of charge. The participants are located in nine European countries in addition to Norway: Germany, France, Italy, Austria, Poland, Czech Republic, Hungary, Slovakia, and Slovenia.

UoB has since 2009 represented the Michelsen Centre in seminars, workshops and project initiatives based on MicroNanoBroker which currently counts more than [400 participants](#) covering micro and nano technologies within a spectre of areas:

- Optics - Mechanics - Electronics - Sensor Technology - Actories - Fluidics - Measurement - Diagnostics - Microwaves - Photovoltaics

A non-extensive list of running projects can be found [here](#).

Where and when

Wednesday August 29, 11-13
CMR, meeting room Helland-Hansen, Fantoftvegen 38

Lunch will be served, please sign up with ragnhild@cmr.no not later than August 27.

Welcome!
